

# Quality Status Report for the Mediterranean Marine and Coastal Ecosystem (QSR)

**Start Date:** May 2017

**End Date:** February 2018

## **Description:**

In the context of implementing the Ecosystem Approach Roadmap adopted by the Contracting Parties to the Barcelona Convention in 2008, the MAP system has now delivered the first ever Quality Status Report for the Mediterranean (2017 MED QSR). This is the first assessment product based on the MAP Ecological Objectives and IMAF indicators; it builds upon existing data and is complimented with inputs from numerous diverse sources where appropriate.

The 2017 MED QSR is an important and innovative development for assessing the status of the Mediterranean ecosystem and the achievement of Good Environmental Status (GES).
